## RCA-iPD MK-2

Converts the Dock to RCA level audio

( RCA-iPD for iPad )

### MOBILE AUDIO DECK

AUX input

audio output

iPad iPhone iPod (sold separately)

Dock INPUT

GROUND

Needs to connect for charging the iPod

ACC +12v

**Feature** Converts the iPod audio output (Dock) to RCA level audio.

※ The RCA-iPD does not have to capability to control any of the iPod function. All iPod control is done through the iPod directly.

The volume level should be adjusted by a audio deck.

**Wiring** Connect Red wire (+12V ACC) and Black wire (Ground) respectively, for charging the iPod while playing.

iPad iPhone4 iPhone\_3G,3G(S) touch(ALL) classic(ALL) video Nano(ALL)

Note: If use the RCA-iPD with iPad or iPhone, there is a notification "this accessory is not compatible with iPhone (or iPad) since the RCA-iPD does not have an authenticated IC chip for
